

Virtual Bridge Games in GTA

Last revised: Oct 3, 2020

MOBridge is hosting virtual club games on Bridge Base Online, and Etobicoke (and Rainbow) players are welcome to play in any of these games. Also available to EBC players is the West end game called Halton/ Bronte/Shoreline virtual club. Typically, a virtual club is just open to those who have played at that club over the past year. However, it has been arranged that EBC players (at least once at EBC in last year) are welcome to play in the above-mentioned games. The main upside for EBC players is the MO club gives our non-open players some options for limited games. And you are directly supporting a neighbour club.

To register and play....

- Login to BBO
- Competitive
- ACBL Virtual Clubs
- Two hours before game time, the club game will show up and you can register from that point up to 10 minutes before game time
 - The first time, register at least 45 min early as a few EBC people have had problems. Contact Steve if your registration is denied.
- For remainder of instructions, go to the MO web site, mobridge.club in left menu; BBO & Online Information
- For all MOBridge games, go to mobridge.club, middle frame right near top
- Bronte bridge club also is eligible for EBC players; they have a 299er game Monday at 10:00 and also at 1:00 Tuesdays

Open Virtual games in Toronto area

These clubs allow EBC players automatically. Do register early your first time, just to be safe
