

Virtual Bridge Games in GTA

Last revised: Sept 30, 2021

Some GTA bridge clubs are running virtual (online) games. While Etobicoke Bridge is only hosting one virtual game (0-20), the two-club combination of MOBridge, Etobicoke has games that are available to “regulars” from these clubs. A “regular” is defined as someone who has played at a club at least once after January 1st, 2019. By playing in these games, you are supporting neighbour clubs and also EBC. You may also request to be added to a club’s eligibility list.

While I have most 0-20,50,100 games listed below, to see all the virtual games offered in Unit 166, go to the unit website

- www.Unit166.ca
- On the main screen, click on **Unit 166 Virtual Bridge Clubs**

To register and play....

- Login to BBO
- Competitive
- ACBL Virtual Clubs
- You can search for a game, ie “mo” for a MOBridge game
- Two hours before game time, the club game will show up and you can register from that point up to 10 minutes before game time
 - The first time, register at least 45 min early as a few EBC people have had problems. Contact Steve if your registration is denied.
- For remainder of instructions, go to the MO web site, mobridge.club in left menu; BBO & Online Information
- For all MOBridge games, go to mobridge.club, middle frame several screens down

Other

- To play in any ACBL game, even 0-20, you must have an ACBL number. Easy solution, ACBL is offering free temporary 4-month memberships. This will get you an ACBL number for life, even if you choose not to continue as a paying ACBL member, after the 4 months is up. You must also insert this ACBL number on your BBO account (ACBL World, bottom of page)

GAMES FOR NEW PLAYERS WITH 0-100 MASTER POINTS:

- **Most games are 18 boards, 7 minutes per board**
- **Register via Virtual Games, then search for the club name, ie “Etob”**
- **You will need to contact the club owner to be able to play. If they agree to put you on their list, you can play any time. Otherwise, they can allow you to play on a one at a time basis, and you would have to contact them each time**
